

# Dirty Barns Wanted

## For Barn Washing and Foam Disinfecting

**Completely Mobile Hot-Cold Water,  
High Low Pressure, Barn washing & Foam  
Disinfecting Service!**

At Freurehaven Farms Ltd. we like to start our birds in a clean environment where they can grow and mature to their full potential. We have hired several different companies to wash and disinfect the barn but were not always satisfied. Last fall, we hired Josh Dekkers "Clean 'N Scrub" and were more than pleased with the results. The barn was exceptionally clean, well disinfected and smelled fresh. Just as important, he followed up by washing and disinfecting his truck and equipment to prevent cross contamination between jobs. Josh is reliable and takes pride in the job he does. Quality service and job performance are well worth the cost. I highly recommend "Clean 'N Scrub"
